

PMSC PERMIT FORM

BACKGROUND

The Netherlands requires Private Maritime Security Companies (PMSCs) to hold a Dutch PMSC permit. With this permit, the PMSC obtains the right to provide armed security services on board ships sailing under the Dutch flag.

In addition, permission must be granted to the ship's manager for each individual transport in order for security to be provided by a qualified PMSC for that voyage.

It is prohibited to carry out maritime security work on board Dutch ships without a permit and permission.

This form is a guide for PMSCs to apply for a PMSC permit from the ILT. The requirements are set out in Chapter 5 of the Merchant Shipping Protection Decree.

Applications can be submitted via... *[to be completed]*

PERMIT APPLICATION

The application procedure consists of two stages:

1. Primary (online) audit of the PMSC
2. Secondary (onsite) audit of the PMSC

Stage 1: Primary (online) audit of the PMSC

Objective: To determine whether the PMSC meets the basic requirements, and whether all additional Dutch requirements have been sufficiently incorporated into its processes and procedures.

The PMSC must use the standard application form to submit an application for a preliminary written assessment. In this form, the PMSC must provide the following information to substantiate its compliance with the requirements:

No.	Description
General information	
1.	Name, address and registered office of the applicant (PMSC)
2.	Contact details of the person in charge of the PMSC

5.1 General requirements	
3.	Copies of valid ISO 9001, 28000 and 28007 certificates, valid for at least 6 months.

5.2 Continuity of the company I	
4.	Extract from the Chamber of Commerce, including proof of ownership (issued within the past 6 months)

5.	Document providing insight into the ownership and control structure of the PMSC, the group to which it belongs and the identity of the ultimate beneficial owner.
