

Driving Electric
Until Your
Sion Arrives

SONO  MOTORS

In order to bridge the waiting time for your Sion, we want to offer you the possibility to drive electrically as soon as possible. That is why we are presenting you a financing offer now. And we are preparing a leasing offer that should be available to you during February 2020. The following examples are supposed to illustrate how the financing can look like and what role your down payment plays in this.

Financing offer and down payment amount:

When you made a € 500 deposit on a Sion

Monthly financing rate: 109 euros and 74 euros for the battery renting. Financing period: 24 months and 7,500 kms mileage per year

When you made a € 2000 deposit on a Sion

Monthly financing rate: 42 euros and 74 euros for the battery renting. Financing period: 24 months and 7,500 kms mileage per year

When you made a € 1000 deposit on a Sion

Monthly financing rate: 87 euros and 74 euros for the battery renting. Financing period: 24 months and 7,500 kms mileage per year

When you made a € 4000 deposit and above on a Sion

Monthly financing rate: 27 euros including battery renting.* Financing period: 24 months and 7,500 kms mileage per year

* The monthly financing rate shown here is still an estimation. We will be able to confirm the final amount during February 2020.

You have the possibility to adapt the annual mileage to your individual needs when ordering the car. Please note that this can change your total monthly financing rate.

Key Conditions

This offer is only valid in Germany and only for those Sion reservation holders with reservations made before 01 December 2019. The car can be ordered at 13 selected Renault branches throughout Germany, given that you present the official certificate to the dealer.

Legal Information

Apart from your down payment made for the Sion, no other down payment is due. All monthly rates stated here will be part of the contract between you and Renault or Renault Bank and are subject to your future contractual relationship. You will receive further information from us during February and the final agreement can be concluded from February to December 2020 with a selected Renault dealer.

The monthly financing rates include a 3,100 euros BAFA (Federal Office for Economic Affairs and Export Control) subvention. The amount could still be changed by the German government depending on the final determination of the subsidy for 2020 in accordance with the „Directive on the Subsidy of the Sale of Electric Vehicles (Environmental Bonus)“. In this case, the prices would also change accordingly.

What does your bridging vehicle look like and what are its features?
