

ACTIVE DENIAL SYSTEM MILITARY WEAPON

95GHz Frequency

5G

MILITARY WEAPON IS 95 GHz

Pain without injury?

Active denial systems deter attackers by sending a non-lethal millimeter wave of electromagnetic energy, causing a burning sensation.

Wave Penetrates the skin to 1/64 of an inch, causing a feeling similar to being on fire.

Two second burst can heat skin to 130° F

98.6° F Normal

122° F People pull away reflexively

130° F

Antenna focuses the invisible energy

Note: Drawing is schematic

Transmitter Produces 95 GHz frequency waves
