

# ACTIVE DENIAL SYSTEM MILITARY WEAPON

## 95GHz Frequency

**5G**

**5G**

**MILITARY WEAPON IS 95 GHz**

### Surfing The U.S. Spectrum

### Pain without injury?

Active denial systems deter attackers by sending a non-lethal millimeter wave of electromagnetic energy, causing a blurring sensation.

Wave Penetrates the skin to 1/64 of an inch, causing a feeling similar to being on fire.

Two-second burst can heat skin to 130° F

98.6° F Normal

122° F People pull away reflexively

130° F

Antenna focuses the invisible energy

Note: Drawing is schematic.

Transmitter Produces 95 GHz frequency waves
