WolBES

1 The position of kingdom representative is discontinued

Current situation:

There is a kingdom representative for the Caribbean Netherlands.

Proposal:

No more kingdom representative. These duties will be taken over by the public entities' island governors, the Minister of the Interior and Kingdom Relations or another relevant minister, or will be discontinued.

2 New administrative supervision

Current situation:

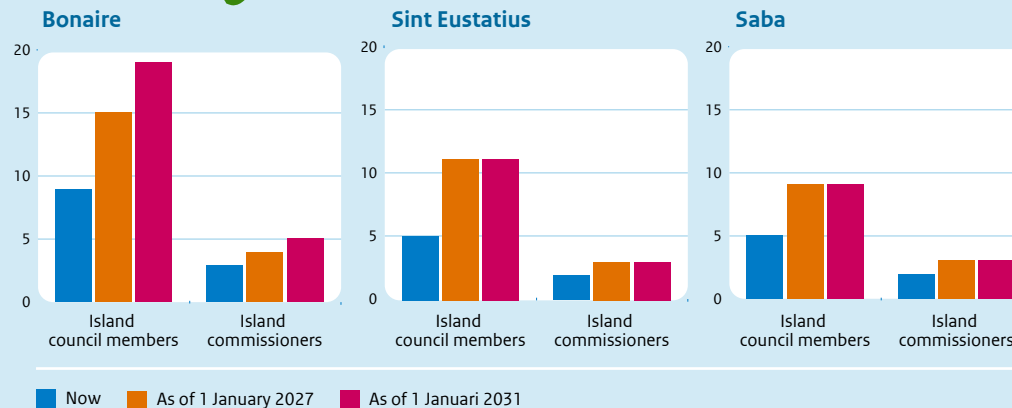

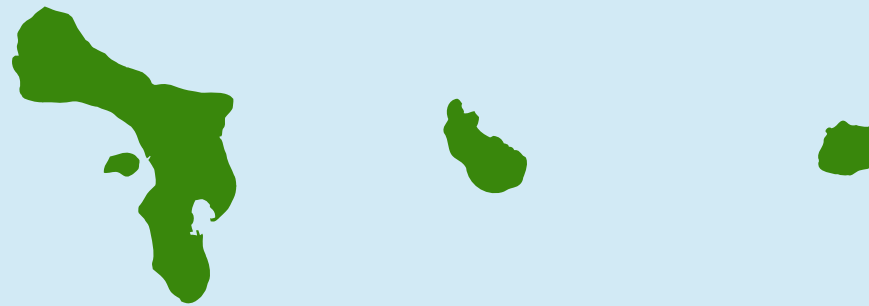

Numerous different forms of supervision.

Proposal:

A single new model that is more efficient, effective and transparent.

3 Number of island council members and island commissioners is increased

FinBES

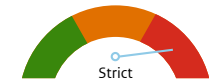

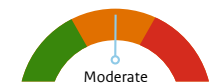

Supervision

Current situation:

A single strict supervisory model for financial management and the budget.

Proposal:

One supervisory model for financial management and one supervisory model for the budget, each with three levels: light, moderate and strict.

The quality of financial management and of the budget determines which level applies.
